

Superior handling & storage solutions

ECOLINE

Economic Multi Heights Solution

 Three Height Options- One Piece Moulded

 Made for Multi Purpose Use

 Long Life Span

Economic and Long Lasting

Available in three different volumes: 485, 590, and 650 Liter, the ECOLINE Series is specially designed for storing and transporting light products of large volume.

The relatively low weight of these boxes makes them exceptionally cost effective. DOLAV ECOLINE boxes are ideal for the storage of light weight products in different industries.

ECOLINE boxes incorporate our exclusive integral runners and anti-slip corners, ensuring safe and secure stacking with high confidence.

The EcoLine box pallet range offer an ideal solution for areas with narrow aisles and limited space and the option to add wheels offers greater mobility.

ECOLINE 485
Height 740mm

ECOLINE 590
Height 870mm

ECOLINE 650
Height 950mm

Customization options
